

## The eTime Screen - Supervisor Home View

### eTime Supervisor Overview

The supervisor home view includes a supervisor dashboard section at the top which allows quick access to supervisory functions: **Leave**, **Overtime Pre-Approval**, **Overtime** and **Time Report** processing. Clicking any of these links takes you to the respective view for managing those items.

Supervisor management tasks are located in the **Supervisor Management** submenu of the **Management** menu from the top navigation bar. These tasks include entering time for employees or processing requests that are delegated to you. See below for additional information.

**Supervisors should review items on their Supervisor Dashboard on at least a daily basis. This will ensure that employee time and attendance records remain current and accurate.**

## Supervisor Management Menu

**Workbox** - Process Leave, Overtime Pre-Approval, Overtime Worked and Time Reports.

**Delegated Workbox** - Process requests that were delegated to you.

**Employee Summary** - Look up profile information for an employee.

**Call-In Request** - Enter the call-in information to prompt employee to enter a leave request.

**Role Management** - Add/Edit the subordinate and delegate roles of your employees.

**Supervisor Report Viewer** - Generate reports on incomplete or pending workbox items for your team.

## Workbox - Leave Requests, Overtime and Daily Time Reports

1. Select **Management**, then **Supervisor Management**, then **Workbox** from the top navigation menu.
2. Select the desired tab for the request(s) that require review.
3. Locate the request to approve and select **Edit** to view and approve or deny the request. *NOTE: To effect multiple approvals at once, select the corresponding checkbox in the first column and click the **Approve** button.*
4. On the Leave Request Details screen, enter comments (required for a Deny action) then click **Approve** or **Deny**. A confirmation dialog will be displayed prompting you to confirm or cancel the action.
5. Upon confirmation, a status message will display noting the action that was just taken (ie, "Leave Request has been [approved/denied]").
